

Philadelphia Organic Chemists' Club

2009 - 2010

- Sept 24 Prof Janis Louie**
The University of Utah
The Versatility of Nickel Cycloaddition Catalysts
- Oct 22 Prof. Dale Boger - Allan R. Day Award**
The Scripps Research Institute
Vinblastine: Synthetic and Mechanistic Studies
- Dec 3 Dr. Karen Lackey**
GlaxoSmithKline
Tykerb® and Kinome Drug Discovery
- Jan 28 Prof. Gregory C. Fu**
Massachusetts Institute of Technology
Palladium- and Nickel-Catalyzed Coupling Reactions of Alkyl Electrophiles
- Feb 25 Prof. David Gin**
Memorial Sloan-Kettering
Synthesis of Vaccine Adjuvants and Bioactive Alkaloids
- Mar 25 Dr. Peter Bernstein**
AstraZeneca
The Challenge of CNS Drug Discovery: 5-HT_{1B} Ligands as Potential Agents for the Treatment of Anxiety & Depression
- Apr 22 Prof. Richmond Sarpong**
University of California, Berkeley
Strategies and Tactics for Complex Molecule Synthesis
- May 13 Dr. Robert Kester**
Roche
Discovery of Piragliatin, a small molecule activator of GK

seminars are held at 8 p.m. in the CAROLYN HOFF LYNCH hall at the Department of Chemistry, University of Pennsylvania following dinner at 6 (cocktails at 5:30)
