

Philadelphia Organic Chemists' Club

2010 - 2011

- Sept 30 Prof John F. Hartwig**
University of Illinois at Urbana-Champaign
Understanding Transition Metal-Catalyzed Reactions
- Oct 28 POCC Award Symposium**
- Prof. Stephen P. Waters**
The University of Vermont
Strategies for the Synthesis of Nitrogen Heterocycles and Alkaloid Natural Products
- Dr. Mary M. Mader**
Eli Lilly
Design of Potent and Selective 2-Aminobenzimidazole-Based p38 MAP Kinase Inhibitors with Excellent in Vivo Efficacy
- Prof. Scott J. Miller**
Yale University
Asymmetric Catalysis with Amino Acids and Peptides: Structure-Function Studies
- Awardee: Prof. Marisa C. Kozlowski**
The University of Pennsylvania
Enantioselective Catalysis: From Design to Application
- Dec 9 Dr. Christopher Welch**
Merck & Co., Inc.
The Use Of Platform Chemical Technologies For Accessing Pharmaceutical Enantiopurity At Merck
- Jan 27 Dr. Grace S. Vanier**
CEM Corporation
The Microwave Revolution: Recent Advances in Microwave Assisted Peptide Synthesis
- Feb 24 Prof. Jon C. Antilla**
University of South Florida
TBA
- Mar 24 Dr. Joel M. Hawkins**
Pfizer
TBA

seminars are held at 8 p.m. in the CAROLYN HOFF LYNCH hall at the Department of Chemistry, University of Pennsylvania following dinner at 6 (cocktails at 5:30)
